NOTE: This TAG can be used with any 6 syllables you choose. You might be wondering about the extra syllable "bright". This was an artistic choice for musical reiteration. Due to the structure of the TAG, you may do a rhyming syllable for this reiteration or a contextual syllable as well. Just as long as the Baritone reiteration is the 2nd and 3rd syllable and the Tenor and Lead reiteration is your "7th" syllable followed by the 3rd. Hope that makes sense.
