General Rules:

The lead sets the pace.

The tag must result is something somewhat musical.

If you sang lead last time, you have to switch.

If more than one part makes a mistake at the same time, they must switch parts as a tie breaker.

Beginner:

1st person to mess up the chord buys the round/takes a shot. Increase/decrease speed until a mistake is made.

Intermediate:

If increasing the speed does not trip someone rotate parts and tag again. Increase/decrease speed as necessary.

Advanced:

Tag and hold the last note until someone passes out.

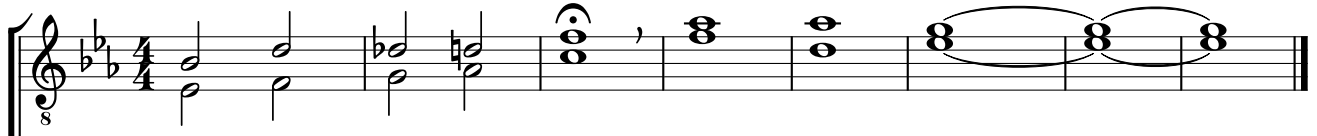

Bonus:

If you can add a 9th and maintain the chord you get a lifeline for that round only (leads excluded)

Know your limits! Tag/drink responsibly!
