F:

$$
\begin{array}{rlllllllllllllllll}
3 & 3 & 3 & 3 & 3 & 3 & 3 & 5 & 5 & 6 & 6 & 6 & 6 & \frac{x}{3} & \frac{x}{3} & 2 & 2 & \frac{x}{5} \\
\backslash 5 & 5 & 5 & 6 & 6 & 6 & 6 & \frac{7}{7} & \frac{7}{7} & \mathrm{X} & \mathrm{X} & 2 & 2 & 3 & 4 & 4 & 5
\end{array}
$$

And so (and so) it seems that we have met before, and laughed before, and loved before

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| $\backslash 5$ | X | X | X | X | X | X | X | X | 2 | 2 | 3 | 3 | 4 | 4 | 5 | 5 | 6 | 6 |

| $\underline{x}$ | X | X | 2-3-4 | 2 | 4 | 2 | 3 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 5 | 6 | 6 | 7 | 7 |  |  |  |

But who knows where or when (where or when)?
$\begin{array}{llllllll}6 & \frac{4}{2} & \frac{4}{2} & 5---- & \frac{5}{2} & 6 & \frac{5}{2} & 5 \\ 3 & 2 & 4-3-2 & 4 & 2 & 4 & x\end{array}$
